Figure 1

Receiving operator characteristic (ROC) curves for the BOOST score and LACE index. Equivalent accuracy is demonstrated for both predictor models. C-statistics were 0.667 (955 CI 0.559 – 0.775, p = 0.005) for the BOOST score, and 0.685 (95% CI 0.579 – 0.792, p = 0.002) for the LACE index.
